2. Consolidation documentation

The Parent presented the consolidation documentation including:

- 3) all consolidation adjustments and eliminations necessary for preparation of the consolidated financial statements;
- 4) calculation of the fair value of the net assets of controlled entities;
- 5) calculation of goodwill as well as its impairment loss;
- 6) calculation of minority interest.

Basis for the preparation of the consolidated financial statements

The Capital Group prepared the consolidated financial statements for the 2010 financial year in accordance with the International Financial Reporting Standards in the form approved by the European Union (EU IFRS).

Entities in the Capital Group

The scope and method of consolidation as well as the relationship between entities in the capital group have been determined based on the criteria specified in the International Financial Reporting Standards.

Financial period

The consolidated financial statements have been prepared as of the same balance sheet date and for the same financial year as the financial statements of the Parent – ENEA S.A. Subsidiaries and associates included in consolidation prepared their financial statements as of the same balance sheet date as the Parent. The financial year of all subsidiaries and associates included in consolidation ended on 31 December 2010.

Consolidation method

The financial statements of the subsidiaries were consolidated using the full method, i.e. full amounts of all relevant items of the financial statements of the Parent and the subsidiaries included in consolidation were summed up.

Once the values had been summed up, consolidation adjustments and eliminations were applied to:

- the cost of shares held by the Parent in subsidiaries and the part of net assets of subsidiaries corresponding to the interest of the Parent in these companies,
- mutual receivables and liabilities of entities included in consolidation;
- material revenue and expenses related to transactions between entities included in consolidation,
- gains or losses resulting from business transactions concluded among entities included in consolidations and incorporated in the amount of consolidated assets.

The equity method was applied with respect to associated entities. The value of the Parent's interest in the associated company was adjusted by increases or decreases in the equity of the associated companies attributable to the Parent, which occurred in the period covered by consolidation, and decreased by dividends due from such companies.

3. Completeness and correctness of drawing up notes and explanations and the report on the activities of the Capital Group

The Parent confirmed the validity of the going concern basis in preparation of the consolidated financial statements. The notes to the consolidated financial statements give a correct and complete description of measurement principles regarding assets, liabilities, profit or loss and principles of preparation of the consolidated financial statements.

The Parent prepared notes in the form of tables to individual items of the consolidated statement of financial position and statement of comprehensive income as well as narrative descriptions, in line with the requirements of EU IFRS.

Limitations imposed on individual assets disclosed in the consolidated balance sheet arising from security granted to creditors have been described.

Individual assets and liabilities as well as revenue and expenses have been correctly presented by the Parent in the consolidated financial statements. The consolidated balance sheet, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows as well as notes which constitute an integral part of the financial statements include all items required for disclosure in the consolidated financial statements under EU IFRS.

The consolidated financial statements have been supplemented with the Management Board's report on the activities of the Parent in the 2010 financial year. The report contains all information required under Article 49.2 of the Accounting Act and the Ordinance of the Minister of Finance of 19 February 2009 on current and periodic information published by issuers of securities and the rules of equal treatment of the information required by the laws of non-member states.
